INDEPENDENT AUDITOR’S REPORT

To the Board of Directors
City of Ann Arbor Downtown Development Authority
Ann Arbor, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Ann Arbor Downtown Development Authority, a component unit of the City of Ann Arbor, as of and for the year ended June 30, 2009, which collectively comprise the Authority’s basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority’s management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Ann Arbor Downtown Development Authority as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management’s discussion and analysis and budgetary comparison information as identified in the table of contents, are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Ann Arbor Downtown Development Authority’s basic financial statements. The accompanying other supplementary information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2009

This section for the Downtown Development Authority's (the Authority) financial report presents a discussion and analysis of the Authority's financial performance for the fiscal year ended June 30, 2009. This discussion has been prepared by management along with financial statements and related footnote disclosures and should be read in conjunction with, and is qualified in its entirety by, the financial statements and footnotes. This discussion and analysis is designed to focus on current activities, resulting change and currently known facts.

Using this Annual Report

This annual report consists of a series of financial statements that focus on the financial condition of the unit of government and the results of its operations as a whole.

One of the most important questions asked about governmental finances is whether the unit of government as a whole is better off or worse off as a result of the year's activities. The key to understanding this question is the Statement of Net Assets and Statement of Activities that present financial information in a form similar to the private sector.

The Statement of Net Assets includes the Authority's assets, liabilities and net assets. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when levied or the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged. The Authority's net assets are one indicator of the Authority's financial health. Over time, increases or decreases in net assets indicate the improvement or erosion of the Authority's financial health.

Condensed Statement of Net Assets

June 30, 2009 and 2008

Current Assets

The increase in current assets is due to the increase in cash and investments being held at June 30, 2009. The components of this category are:

Cash
The Authority maintains a checking account for DDA payments and two bank accounts for depositing parking revenues until they are swept into investments.

Investments at fair value
The Authority keeps its excess funds in investment accounts managed by a bank trust department that invests according to State of Michigan guidelines.
City of Ann Arbor
Downtown Development Authority
MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2009

Accounts Receivable
These are funds due for loan payments and reimbursement for costs on parking structure operating.

Current Liabilities
The decrease 34.97% in current liabilities was due to an decrease in the accounts payable and long-term debt of the Authority.

Accounts Payable
This amount is made up of amounts due for goods and services received, but not paid for by the end of the fiscal year.

Due to Other Governmental Units
Represents amounts due to the City of Ann Arbor for various purposes, mostly payroll related.

Accrued Interest Payable
This amount represents the amount of interest owed but not paid at year end on the outstanding bonds taken out for DDA and parking projects.

Long-term liabilities, due within one year
This represents the amount due for the bonds taken out for streetscape and parking projects due in the next year.

Non-Current Liabilities
The decrease in this category is due to the payment of principal for City obligations the DDA is contractually responsible for during the operating year. This category is composed of:

Long-term liabilities, due in more than one year
This represents the amount due for the bonds taken out for streetscape and parking projects due in more than 12 months.

Net Assets
Net assets represent the difference between the Authority's assets and liabilities.

Unrestricted Net Assets
Represents those funds available to the Authority for use in approved expenses.

**Revenues**

**Property Taxes**
The Authority's property tax revenues are generated through the use of tax increment financing in which the Authority captures ad valorem property taxes. Property tax increment revenues related to the State Education Tax, the Washtenaw Intermediate School District, and the Ann Arbor Public Schools levies are captured in an amount sufficient to support only the annual debt service for Authority obligation outstanding when Proposal A took effect on January 1, 1995. Property tax increment revenues generated by new construction in the Authority's district related to the City of Ann Arbor, Washtenaw County, Washtenaw Community College, and the Ann Arbor District Library are used to support the Authority's capital projects and debt service related to certain of those projects. Property tax revenues for the year ended June 30, 2009 included property taxes levied July 1, 2008 and December 1, 2008.

**Charges for Services**
This is the revenue generated by the 4,500 space off-street parking system and the 1,900 parking meters managed by the Authority.

**Investment earnings**
This is interest revenue earned when Authority funds are invested in State approved investments through the Bank of Ann Arbor.
Expenses

**Downtown Development**
This is the cost of general administration of the Authority as well as grants to other organizations for the betterment of the downtown area. An example would be the funding of downtown worker bus passes.

**Parking**
This is the cost of operating the City's parking system.

**Housing**
This is the cost of one of the Authority's main functions, which is to assist various agencies in providing fair and equitable housing within the downtown area.

Budgetary Highlights

The Authority adopts budgets for all of its funds with budgetary comparisons being presented in this annual report for the General Fund and major special revenue funds.

The General Fund had final budgeted revenues of $4,097,879 and total expenditures and other financing uses of $4,745,271. While the Authority's final budget for the General Fund projected that expenditures would exceed revenues by $647,392, the actual results for the year was $2,852,320 higher than what the Authority anticipated. Results for the year were a increase of $2,204,928 in fund balance. Overall the change from the original Board adopted 2008-09 budget to the final budgeted to revenues that were $342,879 (9.13%) and expenditures that were $1,057,922 (28.7%) greater than the original budget.

The Parking Fund final budgeted revenues were $13,439,794 and expenditures and other financing uses of $15,403,930. While the Authority's final budget for the Parking Fund projected that expenditures would exceed revenues by $1,964,146, the actual results for the year was $774,526 better. Results for the year were a usage of $1,189,620 in fund balance. Overall the change from the original Board adopted 2008-09 budget to the final budgeted to revenues that were $289,009 (2.2%) and expenditures that were $287,685 (1.8%) less than the original budget.

Financial analysis of the Authority's Major and Nonmajor Funds
As the Authority completed 2008/09 its governmental funds reported combined fund balances of $14,466,626. The net changes are summarized in the following chart:

</table>

Capital Assets and Debt Administration
The Authority holds no capital assets as any capital items that are purchased or constructed become property of the City of Ann Arbor. The Authority issued no new debt during the year. Long-term obligations totaled $1,835,000 at year end. More detailed information may be found in Note E to the financial statements.
City of Ann Arbor

Downtown Development Authority

MANAGEMENT’S DISCUSSION AND ANALYSIS

June 30, 2009

Economic Factors and Next Year’s Budget

The fiscal year 2009 budget anticipates the property tax and parking income to be approximately what they were last year. The budget anticipates increases in expenditures at an inflationary rate. The Authority’s reserves are more than adequate to sustain operational losses.

Contacting the DDA’s Management

This financial report is designed to provide the DDA’s citizens, taxpayers, customers, and creditors with a general overview of the DDA’s finances and to demonstrate their accountability for the money it receives. If you have questions about this report or need additional information, contact the Ann Arbor DDA office at 150 S. Fifth Avenue, Suite 301, Ann Arbor, Michigan 48104.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET ASSETS

June 30, 2009

Total fund balances - governmental funds $ 14,466,626

Amounts reported for the governmental activities in the statement of net assets are different because:

Long-term receivables are not available to pay for current period expenditures and are therefore deferred in the funds. These consist of:

Deferred revenue $ 181,487

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consist of:

Bonds payable $ 1,835,000
Accrued interest payable 24,275

$ (1,859,275)

Net assets of governmental activities $ 12,788,838

See accompanying notes to financial statements.

City of Ann Arbor
Downtown Development Authority

RECONCILIATION OF THE CHANGE IN FUND BALANCES OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended June 30, 2009

Net change in fund balances - total governmental funds $ 465,850

Amounts reported for governmental activities in the statement of activities are different because:

Revenues earned but not available for current expenditures are not reported as revenues in the funds. In the current period these amounts are: (50,001)

Repayment of long-term debt and borrowing of long-term debt is reported as expenditures and other financing sources in governmental funds, but the repayment reduces long-term liabilities and the borrowings increase long-term liabilities in the statement of net assets. In the current year, these amounts consist of:

Bond principal retirement 1,199,944

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Decrease in accrued interest payable 16,505

Change in net assets of governmental activities $ 1,632,298

See accompanying notes to financial statements.
NOTE A: DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Ann Arbor Downtown Development Authority was created on May 10, 1982, pursuant to Act 197 of the Public Acts of Michigan, 1975 as amended. The Authority has no stockholders, and all monies received are to be used for certain specified purposes in accordance with the City of Ann Arbor ordinance establishing the Authority.

The primary revenue sources of the City of Ann Arbor Downtown Development Authority are “tax increment revenue” and “parking structure revenue”. The taxing units are required by law to transmit to the Authority that portion of the tax levy of all taxing bodies paid each year on the captured assessed value of all real and personal property located in the development area. The “captured assessed value” is basically defined as the amount in any one year by which the current assessed value of the project area exceeds the initial assessed value.

The financial statements of the City of Ann Arbor Downtown Development Authority have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority’s more significant accounting policies are described below.

1. Reporting Entity

As required by accounting principles generally accepted in the United States of America; GASB Statement No. 14, The Financial Reporting Entity (as amended by GASB Statement No. 39); and Statement on Michigan Governmental Accounting and Auditing No. 5, these financial statements are exclusive presentations of the financial condition and results of operations of the City of Ann Arbor Downtown Development Authority. The Authority is considered a component unit of the City of Ann Arbor, Michigan and is discretely presented in the City of Ann Arbor’s (the primary government) financial statements. A copy of the City’s audited financial statements may be obtained at the Ann Arbor City Hall.

2. Basis of Presentation

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net assets and the statement of activities (the government-wide statements) present information for the Authority as a whole. Interfund activity has been eliminated in the preparation of the government-wide financial statements.

The statement of activities presents the direct functional expenses of the Authority and the program revenues that support them. Direct expenses are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues are associated with specific functions and include charges to recipients for goods or services and grants and contributions that are restricted to meeting the operational or capital requirements of that function. Revenues that are not required to be presented as program revenues are general revenues. This includes investment earnings and property taxes and shows how governmental functions are either self-financing or supported by the general revenues of the Authority.

FUND FINANCIAL STATEMENTS

The fund financial statements present the Authority’s individual major funds and aggregated nonmajor funds. Separate columns are shown for the major funds on the balance sheet and statement of revenues, expenditures, and changes in fund balances. Nonmajor funds are shown in a single column.
NOTE A: DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

2. **Basis of Presentation - continued**

**FUND FINANCIAL STATEMENTS - CONTINUED**

The major funds of the Authority are:

a. **General Fund** - The general operating fund is used to account for all financial resources of the Authority which are restricted to expenditures for downtown development purposes.

b. **Parking Fund** - The Parking fund is used to account for all financial resources of the Authority relating to the parking structures.

c. **Deck Improvements Fund** - The Deck Improvements fund is used to account for all financial resources relating to improvements to the parking decks.

3. **Measurement Focus**

The government-wide financial statements are presented using the economic resources measurement focus, similar to that used by business enterprises or not-for-profit organizations. Because another measurement focus is used in the governmental fund financial statements, reconciliations are provided that explain the differences in detail.

All governmental funds are presented using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

4. **Basis of Accounting**

Basis of accounting refers to the timing under which transactions are recognized for financial reporting purposes. Governmental fund financial statements use the modified accrual basis of accounting. The government-wide financial statements are prepared using the accrual basis of accounting.

Under the accrual basis of accounting, revenue is recorded in the period in which it is earned and expenses are recorded when incurred, regardless of the timing of related cash flows. Property tax revenue is recognized in the fiscal year for which it is levied.

Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues susceptible to accrual include property taxes, reimbursements receivable, and interest revenue. Other revenues are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

The Authority reports deferred revenue on its governmental funds balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Resources are considered available if they are collected during the current fiscal year or soon enough afterward to be used in payment of current year liabilities - defined as expected to be received within sixty days of year-end. Deferred revenues also arise when the Authority receives resources before it has a legal claim to them. In subsequent periods, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.
NOTE A: DESCRIPTION OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

5. Budgets and Budgetary Accounting

The annual budget of the Authority is prepared by Authority management and approved by the Board. Any revisions to the original budget are approved by the Board before the end of the fiscal year.

6. Cash, Cash Equivalents, and Investments

Cash and cash equivalents consist of the Authority's checking and savings accounts and equity in the pooled accounts of the City of Ann Arbor.

Investments consist of U.S. Government Securities with original maturities of greater than 90 days and pooled investments held by the same agent in the Authority's name. Investments are recorded at market value in accordance with GASB 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools.

7. Receivables

Receivables consist of amounts related to charges for services, reimbursements, and property taxes.

8. Long-Term Obligations

Long-term debt and other long-term obligations are recognized as a liability in the government-wide financial statements when incurred. The portion of those liabilities expected to be paid within the next year is a current liability with the remaining amounts shown as long-term.

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in a fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

9. Deferred Revenue

Deferred revenue consists of amounts related to long-term receivables recorded at the fund level that are not available to finance current period expenditures and are therefore deferred.

10. Interfund Transactions

During the course of normal operations, the Authority has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

11. Reserved Fund Balance

Reserved fund balance is used to earmark a portion of fund balance to indicate that it is not appropriate for expenditure or has been legally segregated for a specific future use.

12. Comparative Data

Comparative data for the prior year has not been presented in the accompanying financial statements since their inclusion would make the statements unduly complex and difficult to read.
NOTE B: CASH, CASH EQUIVALENTS, AND INVESTMENTS

In accordance with Michigan Compiled Laws, the Authority is authorized to invest in the following investment vehicles:

1. Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.

2. Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a State or nationally chartered bank or a State or Federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of this State or the United States, but only if the bank, savings and loan association, savings bank or credit union is eligible to be a depository of surplus funds belonging to the State under Section 6 of 1855 PA 105, MCL 21.146.

3. Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.

4. The United States government or Federal agency obligations repurchase agreements.

6. Mutual funds composed of investment vehicles, which are legal for direct investment by local units of government in Michigan.

The United States Congress has temporarily increased Federal Deposit Insurance Corporation (FDIC) deposit insurance from $100,000 to $250,000 per depositor through December 31, 2013. FDIC regulations provide that deposits of governmental units are to be separately insured for the amount of $250,000 for deposits in an insured bank for interest-bearing savings deposits and $250,000 for interest-bearing demand deposits. FDIC insurance coverage through its Transaction Account Insurance Program provides unlimited insurance on non-interest bearing transaction accounts and low-interest bearing (i.e., no higher than 0.50 percent) NOW accounts, this program is scheduled to end December 31, 2009. Furthermore, if specific deposits are regulated by statute or bond indenture, these specific deposits are to be separately insured for the amount of $250,000. For the purpose of these rules, the term “savings deposits” includes NOW accounts, money market deposit accounts, and other interest-bearing checking accounts.

Deposits

There is a custodial credit risk as it relates to deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Authority’s deposits may not be returned to it. As of June 30, 2009, the carrying amounts of the Authority’s deposits were $481,399 and the bank balance was $450,819, all of which was covered by federal depository insurance. The Authority had $200 of imprest cash on hand.

Credit risk

State law limits investments to specific government securities, certificates of deposit, and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments above. The Authority’s investment policy does not have specific limits in excess of state law on investment credit risk. The ratings for each investment are identified below for investments held at year-end.
NOTE B: CASH, CASH EQUIVALENTS, AND INVESTMENTS - CONTINUED

Interest rate risk

State law limits the allowable investments and the maturities of some of the allowable investments as identified in the list of investments above. The Authority's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of credit risk

State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments above. The Authority's investment policy does not limit concentration of credit risk. All investments held at year-end are reported below.

Custodial credit risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the Authority does not have a policy for investment custodial credit risk. On the investments listed below, the custodial credit risk is indicated for those investments which are rated. $4,025,603 of the investments listed below are unclassified as to custodial credit risk as the invested amount is part of an investment pool. $7,944,115 of the investments below are uninsured and unregistered, with securities held by the agent in the Authority's name.

Investments

As of June 30, 2009, the Authority had the following investments:

<table>
<thead>
<tr>

<tr>
<td>Cash and cash equivalents</td>
</tr>
<tr>
<td>Investments</td>
</tr>
</tbody>
</table>

$12,451,317
NOTE C: INTERFUND RECEIVABLES AND PAYABLES

The following schedule details interfund receivables and payables at June 30, 2009:

Due to General Fund from:
  Parking Fund $ 4,192,036

Due to Deck Improvements Fund from:
  Parking Fund $  664,507

Due to nonmajor governmental funds from:
  Parking Fund $  107,110

Amounts appearing as interfund payables and receivables arise from two types of transactions. One type of transaction is where a fund will pay for a good or service that at least a portion of the benefit belongs to another fund. The second type of transaction is where one fund provides a good or service to another fund. Balances at the end of the year are for transfers that have not cleared as of the balance sheet date.

NOTE D: INTERFUND TRANSFERS

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. For the purpose of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

Transfer to General Fund from:
  Nonmajor governmental funds $  948,348

Transfer to Deck Improvement Fund from:
  Parking Fund $  2,093,605

Transfer to nonmajor governmental funds from:
  General Fund $     200,000

The transfer from the nonmajor governmental funds to the General Fund was to move all remaining assets from the Street Improvements Fund upon completion of the project. The transfer from the General Fund to the nonmajor governmental funds was to cover normal operating expenditures. The transfer from the Parking Fund to the Deck Improvement Fund was to assist with ongoing construction activities in the Deck Improvement Fund.

NOTE E: LONG-TERM DEBT

The following is a summary of changes in long-term debt (including current portion) of the Authority for the year ended June 30, 2009:

NOTE F: BOND COMMITMENTS

The Authority has entered into various agreements to provide financial assistance with projects which are related to the DDA’s overall mission. These agreements include several commitments to the City of Ann Arbor to assist with payment of debt issues for parking structures and the new City Hall addition. The debt issues are obligations of the City of Ann Arbor that the Authority has agreed through action of the Board of Directors to fund in whole or in part as applicable. The parking structure bonds are to be serviced with revenues from the Parking Fund. The City Hall bonds are to be serviced from future tax-increment revenues of the General Fund.

Significant details regarding outstanding commitments are presented below:

Bond Commitments

$3,600,000 4th and William Parking Garage bonds dated May 1, 2002, due in annual principal installments ranging from $155,000 to $275,000 through 2022 with interest ranging from 3.8 to 5.00 percent, payable semi-annually.  $2,715,000

$8,290,000 4th and William Parking Garage Additional bonds dated December 1, 1998 and May 1, 2007, due in annual principal installments ranging from $150,000 to $330,000 through 2027 with interest ranging from 4.00 to 4.25 percent, payable semi-annually.  4,105,000

$4,380,000 4th, Washington, and Maynard Parking Garage bonds dated December 1, 1998, due in annual principal installments ranging from $425,000 to $575,000 through 2017 with interest ranging from 4.00 to 4.50 percent, payable semi-annually.  3,985,000

$13,305,000 4th, Washington, and Maynard Parking Garage bonds dated July 28, 2005, due in annual principal installments ranging from $600,000 to $1,470,000 through 2020 with interest ranging from 4.00 to 5.00 percent, payable semi-annually.  13,305,000
NOTE F: BOND COMMITMENTS - CONTINUED

Bond Commitments - continued

$2,265,000 Forest Parking Garage bonds dated February 1, 2000, due in an annual principal installment of $505,000 due in 2010 with interest of 5.50 percent, payable semi-annually. $ 505,000

$8,200,000 City Hall bonds dated July 1, 2008, due in annual principal installments ranging from $255,962 to $491,084 through 2031 with interest ranging of 3.15 percent, payable semi-annually. 7,951,859 32,566,859

The annual requirements to pay the debt principal and interest outstanding for the bond commitments are as follows:

NOTE G: RISK MANAGEMENT

The Authority participates in a State pool through the Michigan Municipal Risk Management Authority, with other municipalities for liability, property, and crime losses. The pool is organized under Public Act 138 of 1982, as amended as a governmental group property and casualty self insurance pool. In the event the pool’s claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool’s policy year may be subject to special assessment to make up the deficiency. The Authority has not been informed of any special assessments being required.

The Authority, as a component unit of the City of Ann Arbor, is protected from other losses as described in the note captioned “Risk Management” within the City’s Comprehensive Annual Financial Report.

NOTE H: NON-CANCELABLE OPERATING LEASE OBLIGATIONS

The Authority has entered into two (2) non-cancelable long-term operating leases.

The first is for rental of office space that requires monthly payments ranging from $5,583 to $5,894 through June 30, 2011. The following is a schedule of future minimum lease payments required under this operating lease as of June 30, 2009.

<table>

<td>$66,994</td>
</tr>
<tr>
<td>2011</td>
<td>70,722</td>
</tr>
<tr>
<td>TOTAL PAYMENTS</td>
<td>$137,716</td>
</tr>
</tbody>
</table>

The second is for property used for parking that requires quarterly payments of $79,390 for calendar year 2009. The quarterly payments for each year are adjusted based on the change in the Consumer Price Index, as established by the U.S. Department of Labor, each October in relation to the previous October. The current agreement is set to expire December 31, 2011, but has been extended in five-year increments since 1982 and is expected to continue beyond that date. Annual payment information beyond 2009 is not presented on this obligation because they are not determinable at this time.

NOTE I: PARKING MANAGEMENT AGREEMENT

The Authority has entered into an agreement with Republic Parking, Inc., under which Republic operates various parking facilities in the City. Parking revenues collected are deposited directly in the Authority’s bank account and the Authority is billed monthly for operating expenses incurred by Republic. Additionally, Republic is paid a management fee of $12,500 per month as well as an annual incentive payment that is determined based on certain agreed-upon measures of performance. This agreement commenced on February 1, 2007, and is automatically renewed for up to seven (7) additional one (1) year terms unless either party gives written notice.
NOTE J: MASTER PARKING AGREEMENT WITH THE CITY OF ANN ARBOR

The Downtown Development Authority, pursuant to various lease agreements, is responsible for management of the entire public parking system for the City of Ann Arbor, with the exception of parking enforcement and the residential permit program. The current agreement is for the period of July 1, 2005 through June 30, 2015, and provides for the Authority to pay the following amounts to the City of Ann Arbor:

- Payment of all facility maintenance and utility costs
- Payment of an annual fund transfer of $730,000 to the City's Major and Local Street Funds
- Payment of annual rent of $1,000,000

All of these amounts are paid from the Authority's Parking Fund with revenues derived from charges for services at the various City parking facilities.

NOTE K: PROPERTY TAXES

Property tax revenue is derived pursuant to a tax increment financing agreement between the Authority and various applicable taxing districts. Real and personal property taxes are levied and attach as an enforceable lien on properties located within the boundaries of the tax increment financing district. The City of Ann Arbor bills and collects the taxes on behalf of the Authority. Delinquent taxes on ad valorem real property are purchased by the County of Washtenaw. Property tax revenue is recognized in the year it is levied in both the government-wide financial statements and in the fund financial statements.
