3. REPORTS FROM CITY BOARDS AND COMMISSIONS

Downtown Area Citizens Advisory Council: Mr. Detter reported the CAC had its annual dinner party and discussed areas of interest for 2010, including: continuing the CAC commitment to downtown residential density; supporting existing housing (e.g. Courthouse Square Apartments) and the near downtown neighborhoods. They support the A2D2 zoning and prefer that a mandatory design review board be established. They will follow the City process for the Library Lot site closely. He said the CAC has worked on the Downtown Historical Street Exhibit Program for over 20 years, and said without the DDA’s early grant the project might not have happened.

4. STATUS OF TASKFORCE EFFORTS WITH DDA MEMBERSHIP

A2D2 Steering Committee: Mr. Hewitt announced the A2D2 Zoning was approved by City Council. The plan did not include DDA recommendations sent to the City in April and June. He said that he was personally disappointed as he believes the City missed an opportunity to increase downtown residential density and revenues at a very crucial time. The A2D2 Steering Committee will continue to focus on Design Guidelines in the next phase of its work.
Mutually Beneficial Committee: Ms. Smith said there is nothing to report.

Library Lot Advisory Committee: Mr. Splitt said that the City received 6 proposals and project information is available on the City website. Advisory Committee members are: City Council: Stephen Rapundalo & Margie Teall; Planning Commissioner: Eric Mahler; DDA: John Splitt; Parks Advisory Commission: Sam Offen; Staff: Roger Fraser, Matt Kulhanek, Jayne Miller and Susan Pollay. The first meeting of the Committee will take place December 4, 11AM, City Hall.

Utility work by DTE and AT & T continues, including the design of relocated conduits and transformers. The Construction Manager contract is under review by the DDA and Christman attorneys. Ms. Gunn moved and Mr. Collins seconded the following resolution:

RESOLUTION TO AUTHORIZE DDA EXECUTIVE DIRECTOR TO NEGOTIATE EASEMENTS TO ASSIST THE S. FIFTH AVENUE UNDERGROUND PARKING STRUCTURE PROJECT

Whereas, The DDA is moving forward with its S. Fifth Avenue Underground Parking Structure project, which involves the installation of new water mains and the relocation of electrical transformers and electric and communication lines, as well as installation of fencing and shoring tiebacks;

Whereas, Temporary and permanent easements are needed for this work, and involve coordination and approvals from DTE and private property owners;

Whereas, The DDA Executive Director has been working with DDA consultants and City staff to determine which easements are needed and is providing regular reports on progress toward securing easements to the DDA Capital Improvements Committee as part of planning efforts for the parking structure project;

Whereas, DDA resources will be used to secure these easements, including building rentals, installation of replacement sidewalks, driveways and landscaping, and assistance with storm water management.

RESOLVED, The DDA Executive Committee authorizes the DDA Executive Director to commit DDA resources as necessary to secure temporary and permanent easements as part of the S. Fifth Avenue Underground Parking Structure Project.
Mr. Hewitt said the arrangements could address sidewalk repairs or replacing landscaping that was damaged as a result of the construction. Mr. Clark proposed an amendment that was accepted as friendly to change Executive Committee to the DDA in the Resolved paragraph.
