Nadine & the UFO

Surrounded by towers, I look up to the sky.
From my view on South U, they look very high.
Beam me up from this bench, I want to leave quick!
Let's soar over the Diag, the streets, and the brick.

If I had a Nickel for every game that I played,
I'd have zero nickels, though I'm in an arcade.
My plant likes the sun and faces the east,
We avoid the west where it shines the least.

Where are we?

Nadine & the Fuzzy Slippers

3

We often visit my friends, Thom and Will.
We like to surprise them and sit very still,
Behind a window that only shows stairs,
and rumbling vehicles parked in squares.

Where are we?

Nadine & the Bookworm

4

We found little nooks
To read our little books.
We looked under shelves, we sat under trees,
but found the perfect spots across from the numbers 343.

Nadine & the Opossum-Mouse Network

Hello, can you hear me? I'm trying to call.
There are only exits on this wall!
We found the way out, but please help us in.
We went left by Ashley, then past the Grotto, then left again.

At Liberty and 2nd, there is a lovely little stop,
filled with people, and coffee, and produce, and crops.
We fly here often, and always come back
to sit in the corner and eat our snacks.

Where are we?

Nadine & the Professorial Hamster

7

Under a roof, but not in a building.
We watch cars come and we watch cars go.
They stay for hours
while we watch between towers.

Where are we?

Nadine & the Sick Day Delivery

As red giant engines make their way out of doors,
I'm searching to find my favorite carnivore.
He watches at the Hall, wistfully from the bricks,
As he remembers his favorite fire tricks.

Where are we?

Nadine & the Squirrel

9

On Wednesday and Saturday, we like to come out
to see what all the hustle and bustle is about.
Vendors lined up, straight as an arrow,
all down the aisles, right across Sparrow.

Where are we?

Nadine & the Wallflower Dragon

10

We aren't lost! We're by Found.
Watching people near the ground.
We see and we listen
as people go by Miss Kim's kitchens.
