

Road/Lane Closure Notice

April 24, 2026

Full Closure of South Fourth Avenue from East William Street up to and including East Liberty Street

When: 7 a.m. Monday, May 4 - 5 p.m. Thursday, Nov. 5, 2026

Why: This closure is to accommodate a complete reconstruction of the street, including the installation of new water main, street lighting, storm sewer, and stormwater storage, the replacement of roadway pavement and pedestrian sidewalks, accessible pedestrian signals, installation of new bus shelters, and pavement marking and signage improvements.

Detours and other travel impacts:

- The intersection of Fourth Avenue and East Liberty Street will be reopened from July 10 to July 26 for special events.
- The intersection of East William Street will remain open to vehicular traffic, but northbound turns onto Fourth Avenue will be restricted. There will be a period when cyclists using the William Street bikeway will be shifted slightly into a closed vehicular lane. After July 20, a temporary, short-term closure of the bikeway will occur with a detour provided for both directions via shared lanes along East William Street between South Main Street and South Fifth Avenue.
- The Fourth and William Parking Garage will be accessible from William Street only. Pedestrian access from the Fourth Avenue entrance to Liberty will remain open, except for when the sidewalk is being replaced.
- Local pedestrian access will be maintained to all businesses in the area.
- Starting May 3, the Blake Transit Center will be temporarily closed for the duration of the project. Information regarding impacts to bus routes and stop locations can be found on TheRide's website: <https://www.theride.org/btc>
