RESOLUTION TO INCREASE THE ANN ASHLEY PROJECT BUDGET TO CONSTRUCT MEETING AND OFFICE SPACE

Whereas, The DDA has managed public parking in pursuit of its mission since 1992;

Whereas, The Ann Ashley structure was designed to be expanded, and the DDA Board resolved to pursue an expansion to help encourage new development and activity west of Main Street;

Whereas, In October 2017 the DDA voted to establish a $18,000,000 project budget, which included the costs to construct a three-floor expansion, plus additional elements such as added electricity and EV chargers, LED lights, deterrent fencing and anchors for future rooftop solar panels;

Whereas, In April 2018 the DDA voted to increase the project budget to $21,700,000 to include design changes such as architectural louvers and demolition of the north end of the garage near Miller Street;

Whereas, in June 2018 the DDA voted to eliminate these design elements but resolved to keep the project budget at $21,700,000;

Whereas, The Operations Committee directed the project design team to develop a strategy to utilize the ground floor of the southern-most portion of the garage, which may include an office for the DDA, an office for the DDA’s parking operator, and a space that could be used for large public meetings;

Whereas, The cost for this office construction has been estimated to be $4,000,000, and upon consideration, the Operations Committee recommends the DDA increase its project budget as follows:

Original Project Budget
Base cost (3 added floors, added elevator Ann St elevator) $16,000,000
Add’l scope (fencing, electrical & EVs, LEDs, storm detention) $ 1,300,000
Project bond issuance costs $  700,000
Garage concrete stain $  375,000
New stair/elevator enclosures $  885,000
Ann St lighting, signage, stain $  275,000
Landscaping & north stair grade enclosure $  140,000
Garage repairs/restoration (per 20 year repair plan) $  775,000
$20,450,000
Bidding contingency (louver elimination, etc.) $  1,250,000
$21,700,000
Offices and public meeting space $  4,000,000
Revised Project Budget Including Buildout $25,700,000

Resolved, The DDA approves an increase in its project budget for the Ann Ashley project to $25,700,000 and authorizes its staff to submit a site plan for the office space to the City for its review and approval.
RESOLUTION AUTHORIZING A CONTRACT WITH WGI FOR THE DESIGN/ENGINEERING AND CONSTRUCTION OVERSIGHT OF THE ANN ASHLEY BUILDOUT PROJECT

Whereas, The DDA has managed public parking in pursuit of its mission since 1992;

Whereas, At the July 2019 meeting, the DDA board indicated consensus support to pursue an office buildout at the Ann Ashley structure and instructed staff to bring forward financial information, and a conceptual space allocation;

Whereas, An office build out at Ann Ashley will necessitate another site plan;

Whereas, WGI had been retained under a separate contract for design and engineering for the Ann Ashley expansion project;

Whereas, WGI’s proposal to oversee the site plan, engineering, and construction oversight processes for an office build out is $268,000.00, which is included in the soft cost estimate for the office build out;

Whereas, The Operations Committee recommends the DDA approval of this proposal;

RESOLVED, The DDA authorizes a contract with WGI for $268,000 to cover design, engineering and construction oversight of the Ann Ashley office buildout.

RESOLVED, Upon review by the DDA Attorney, the DDA directs the DDA Executive Director and Operations Committee Chair to sign a contract with WGI to complete the engineering, prepare a site plan, construction drawings for this project.

Art Fair
Much preparation took place in the first half of July for Art Fair. This included multiple training meetings for management and hourly staff on Art Fair operations and ticket handling. Supplies such as signs, vests, flags and canopies were made ready. Equipment was programmed to accommodate Art Fair rates. Signs were posted in advance of the Fairs to notify parkers of the special event rate.

Staff worked to assign and issue vendor/artist passes for Art Fair. A total of 471 weekly vendor permits were sold this year (236 on-street and 235 off-street). These permits provide a guaranteed space for the week of the fair. This total is up from last year by approximately 100 spaces.

Operations staff developed a staggered schedule to improve staffing coverage and reduce need for overtime.

During the Fair meter staff coordinated with Fair directors and Enforcement staff to monitor meter bags and street parking. Operations staff worked to keep space counts accurate and to help redirect parkers to locations with available parking. High temperatures, humidity and storms were a factor Thursday through Saturday. Power outages occurred following storms on Friday night but RPS operations and IT staff was able to get everything operational in time for opening on Saturday morning.

RPS will share revenue data as it is available.

Meters
Work continued to upgrade 3G modems in the older epark kiosks. Process should be complete by end of July.

July 1st rate change work was completed by July 2nd. This included new decals on epark kiosks, signage
updates and software updates.

Ahead of the Art Fair meter staff worked with the City Enforcement officers to do the second abandoned bike sweep for the year.

Parking System Equipment- Procurement Process
DDA and RPS continue to meet to draft RFP. No additional update at this time.

Parking System Maintenance/Equipment
IT staff re-set permit card readers to improve read time.

Painting of curbs, arrows and bollards continued.

City/DDA Parking Enforcement and Operations Group
The group met on July 11. Community Standards, AAPD, Treasury, Republic Parking, and DDA staff shared updates and information. Art Fair discussion included review of parking space needs for AAPD, Community Standards and HVA during the fair.

Tally Hall Condominium Meeting
The group met on July 9. Ongoing and upcoming projects were discussed, and budget timing reviewed. The next meeting will take place in January 2020.

First & Washington Condominium Meeting
The next meeting has yet to be scheduled. The structure opened in late 2013 and a condominium board has yet to be formally established.

Parking Construction
Ann Ashley
At the direction of the Operations Committee DDA staff worked with the project team to explore what is possible as far as a buildout of the space under the structure on the south side of Ann Street. Information was shared at the July Board meeting. Staff has continued to work on financial modeling for the project.

As expected, DDA FY 19 ridership came in at just slightly over the rolling 12-year average, but also came in at the lowest ridership since 2011. Graphs are provided below. What we do not seem to be seeing, however, is an increase in hourly garage usage rates. Our belief is that this drop is mostly related to an increased interest in walking and biking to downtown, possibly aided by individuals parking outside of the metered areas and walking in to work. Additionally, we have not paired the ridership figures with downtown employment information from the equivalent time periods to determine whether this reflects any changes in the number of employees within the DDA boundaries. Staff is developing a dashboard of various metrics to try to encompass these sorts of data points to bring forward a better picture of the effectiveness of the getDowntown Program, with a goal of having a draft dashboard developed by this fall.
Other Activities
ArborBike update—Permits have been submitted to the City for approval. Our understanding is that the remaining question is over license agreement language from the City attorney’s office. Shift Transit has said it will take about a week from approval to launch the system.

Commuter Challenge 2019 Follow up—Staff sent out to all registrants of the Commuter Challenge the annual event survey. 688 responses were received from across the thousands of registrants. Of interest to the Board:

- About 31% of respondents indicated that this was their first Challenge of any type, with about 20% of those (or 6.2% of all respondents) indicating this was their first time ever using an alternative commute.
- 34% of the first-time participants indicated that they anticipated their use of alternative commuting options to increase, with only 9% indicating they just did it for the ice cream.
- Of our “experienced” participants, 48% indicate that they use an alternative every day, with another 21% indicating they use one “often” (once a week or more).
- 65% of the “experienced” participants indicated that their use of alternatives would remain the same, with only 7% saying they did it for the ice cream.
- Word-of-mouth, whether from co-workers or the Team Captain continues to be the most likely way people hear about the Challenge.

Interesting comments included:

- A number of comments regarding commuting from outside of the community and a lack of access to mass transit as a result. This indicates a need for more information on the ridematching platform, CommuterConnectMI.com, to downtown businesses.
- Prizes as an incentive continues to be a main selling point, but a number of participants enjoyed the ease of entering commutes and the immediate feedback on results provided by the website as a part of the Challenge they enjoyed.
- A number of participants indicated an interest in logging trips during the day as something they would appreciate. This idea for future challenges will be discussed with the partners for feasibility.

getDowntown is always looking for additional business testimonials on how the program or how go!pass contributes to their success. Board members are encouraged to contact the office and provide their success stories or provide staff with information on stories they’ve heard for follow-up.
